Cropper Federal Security (CFS) is a Service Disabled Veteran Owned Business headquartered in Las Vegas, NV. Our business excels at delivering IT strategy consulting, cyber security, information technology, engineering, and mission support solutions. CFS was founded by a former USAF Commander and provides over 24 years of military level strategy, security, operations and maintenance experience from worldwide locations. CFS maintains an active Top Secret facility clearance (FCL) and is well versed in supporting classified programs at the Secret and Top Secret Level, including those that require SCI access. Our operational and technical expertise includes:

- IT Strategy Consulting
 - CIO/CTO/CISO Support
 - Cybersecurity
 - Waterfall, Agile, and Lean Processes
 - Strategic Roadmaps
 - New Business Team Creation
 - Leadership & Mentorship
- Cyber Security Operations and Solutions
 - System Engineering & Integration
 - Engineering Analysis
 - Cross Domain Solutions
 - Cyber Security Architecture & Design
 - Public Key Infrastructure (PKI) / PK Enabling
 - Risk Management Framework (RMF)
- IT Operations and Management
 - IM / IT Solutions
 - Portfolio Management
 - Telecommunications Solutions
 - Information Assurance

Client Centric and Culture Sensitive

CFS embraces and understands the client culture. Effectively navigating DoD environments to ensure mission accomplishment takes an intimate understanding of the client organization. More so, success within the classified or sensitive environment often hinges on relationships that are based on proven performance and established trust.

Over the past twenty-two (24) years, our leadership has supported numerous critical C4ISR programs for the US Air Force and DoD from the Squadron to COCOM levels. Efforts include J2/3/6 OPLANs, CCDR briefings, as well as public key infrastructure (PKI) integration, Distributed Common Ground System (DCGS), Information Operations platform (IOP), system engineering, integration, and sustainment support for multiple Air Force Cyber Weapon Systems.

CFS leadership comprehends the complex facets behind 8(a) direct awards as well as GSA. Working peer-to-peer with government COs, we use DCAA compliant systems and cost methodology to provide the absolute best value in negotiations. Until receiving 8(a) certification status, CFS teams with other 8(a) and non 8(a) companies to provide best of breed support while simultaneously pursuing SDVOSB set asides and direct awards IAW SubPart 14.405/6.
